Richard Dosch here. Can I get you to send a text or email to me regarding your witnessing Randy fabricating an assault on him? Or if it's more convenient for you to print it out and have me pick it up that's fine too. My email is [REDACTED] Thanks,

9 to 13 feet from door. I was approx 27 feet from the door handle. Approx the same to the front of borough secretary who was facing towards dog park and approx 24-25 from back of council person. Randy changed course from going past borough secretary and councilman and lunged between them. Randy immediately and I mean immediately yelled you touched me I'm calling the police or cops, just not sure of his utterances.

Your text starts with "9 to 13 feet from door". Did something get cut off from the beginning?

Those were my notes as written that evening. You and council secretary were approximately that far from door. I can't say what his intent was for taking the shortest of paths to head back to the council door or why he decided to return thru the two of you. It would just be my observation that there was no need for him to be between the two of you when one step to his right or left would have avoided the one confined space in the entire parking area. That's why I note how far apart each group of people were located. There seems to have been no need to crowd between you and the borough secretary other than to create an incident, in my opinion. If anything, he violated your space and struck you, if there was any contact at all.

Ok, thanks again.
